DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-9, drawn to a module server system, classified in class 361, subclass 796.
 - II. Claims 10-15, drawn to a storage blade, classified in class 361, subclass 728.
 - III. Claims 16-25, drawn to an operating system for a plurality of server blades, classified in class 711, subclass 141.
 - IV. Claims 26-30, drawn to a storage medium operating system, classified in class 710, subclass 36.

2. Inventions I and II-IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as the housing for blades is not using blade design of II, the operating system of III or the storage medium operating system of IV, invention II has separate utility such as a blade not using the housing design of I, the operating system of III or the storage medium operating system of IV, invention III has separate utility such as an operating system not using the housing design of I, the blade design of II or the storage

medium operating system of IV, invention IV has separate utility such as a storage medium operating system not using the housing design of I, the blade design of II or the operating system of III. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hung S Bui whose telephone number is (703) 305-8024. The examiner can normally be reached on Monday-Friday 8:30AM-6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David S. Martin can be reached on (703) 308-3121. The fax phone numbers for the organization where this application or proceeding is assigned are (703)
